Welding Screens & Curtains

Fax to: +61 3 9571 7344

Mulders custom welding screens and curtains offer an economical solution to employee safety issues. We specialize in manufacturing custom welding screens or welding curtains to fit your specific needs. Mulders screens can include d-rings, zips or velcro to fix to your frame or structure. The screens can also be fabricated into flat or dimensional covers

- To quote for your screen or curtain we need side lengths or drop and width of your frame or curtain as well if your requirement is not a regular square or rectangle. We also need your preferred fixing methods to your frame or ceiling.
- We will work you out a price for you and make necessary allowances for fixing methods.
- Our costs are competitive as we manufacture in house and hold stock on flame retardant materials.

Side Lengths & Diagonals (if needed)	Square	Diagonals (if irregular shape)	Other Shape (draw below)
